

GBSLINENS

GBSLINENS

Our New Look

After 30 plus years in business, it was a daunting thought to change our logo, the most visual expression of who we are. But like all things, change is inevitable. Our company has certainly changed over the years, so it seemed only natural that it was time for our logo to evolve as well.

When we first jumped into this project we did what we always do, we reflected back to our history. For a company such as ours, who is deeply seated in our roots, we always want to move forward and strive ahead while staying grounded in where we come from.

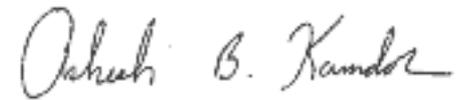

That being said, we wanted something that looked and felt familiar, but was updated and fresh. We wanted a look that embodies our commitment to innovation, relationship building, and value. After several tries and several years, we were able to find a branding partner who understood our vision of helping our customers to create lifetime memories for their clients special occasions.

So, if you didn't already do a double take when you got this catalog, go ahead and take a peek at our new look. We hope you like it!

Warmly,

Sujata Mody Kamdar
President

Ashesh B. Kamdar
Chief Executive Officer

The Man Behind the GBS Vision

Pravin J. Mody, GBS founder and lifetime philanthropist.

The Mody Family.

Pravin and his wife, Sudha in 2010.

It all began with Pravin J. Mody. Pravin moved to the United States from Mumbai, India in 1962 to pursue an education—first his Bachelors of Science in Chemical Engineering followed by a Master’s in Industrial Engineering from the University of Oklahoma, and later an MBA from Pepperdine University. Pravin was destined to become an entrepreneur and started and sold several businesses before founding GBS Linens in 1984. The beginnings were modest, consisting of a very small laundry business operated out of a leased facility in Anaheim, California. But Pravin dedicated himself to the business and considered it his third child—following his two children, Ameer and Sujata with his wife and soulmate Sudha. The business developed and grew into the company Pravin had envisioned.

Pravin retired in 2005 to pursue another passion, helping others through the support of education and health. He contributed to many philanthropic activities and was even a founding member of the Anaheim Health Fair, which he continued to actively support every year. In 2015, Pravin and Sudha pledged to build the PACE Mody Technical Institute in Ahmednagar, India.

On February 27, 2016, Pravin peacefully passed away leaving a legacy of success, good will and most of all a beautiful wife and family. Those who spent time with him knew he believed life was not only about happiness, but about having meaning. He will be greatly missed by all who knew him and the entire GBS Linens family. Cheers to you Pravin J. Mody! You’ll forever remain in our hearts and at our tables.

Pictured l to r: Sujata Mody Kamdar, President; Pravin J. Mody, Founder; Ashesh B. Kamdar, Chief Executive Officer.

GBS Linens remains family owned and operated by members of the Mody family. Our core values revolve around offering a superior quality product at an excellent value while maintaining positive relationships with our customers, our employees and the communities in which we do business.

Pravin celebrating his 75th birthday, December 22, 2015.

Our Services

For our customers, exceptional value requires one-stop shopping for their rental, laundry, sales, and restoration needs. Whether you're an event planner working out of your home or a national event production firm, GBS Linens has a service that can help you become more successful.

Rental

Eight facilities warehouse GBS's vast inventory of specialty linen and chair covers. With over 400 fabrics and styles to choose from, GBS is able to fulfill the design visions of their clients for events of any size.

Laundry

With the capacity to wash several thousand pounds of linen per hour, GBS offers a 48-hour turnaround for customer-owned linen.

Sales

What's great about buying linen from a company that rents as well? When you purchase linen from GBS and have a need to sub-rent additional pieces in the future, your colors will match! GBS also offers custom design and manufacturing to meet our client's specific needs.

Restoration

Why throw away linen that is damaged? GBS offers restoration services to analyze your linen and determine if damaged linen can be cut down into smaller sizes and brought 'back to useful life'.

Our laundry includes back up systems.

Our wash aisle utilizes automated chemical and water delivery.

Our CAD software and automated cutting machine allows for precision cutting and fast production times.

Scanning table which is used to check the rental linens in after being returned from the customer.

Sorting machine which is used to automatically sort linens before being washed.

RFID chip compared to the size of a coin.

Our Unique Technology

In addition to a broad linen inventory and strong customer service, one of our key competitive advantages is our use of RFID (radio frequency identification) technology.

This technology helps YOU in the following ways:

- Provides real-time inventory information for our customers which eliminates long phone wait times due to stock checks.
- Ensures customer orders are complete and accurate.
- Saves labor expenses for our customers since they do not have to count linens back from their events or clients.
- Minimizes the mix-up of our rental linens with our customer's inventory of linens.
- Ensures the right colors are washed together by automatically sorting dirty linens which improves overall product quality.

We believe that our years of experience using this technology is unique in the linen business and can help you and your team become more successful.

Our Responsibility

- As a certified minority-owned business, we are committed to diversity in our workplace and with our business partners.
- We support our communities through charitable giving and volunteerism for events such as the Anaheim Health Fair which provides free medical screenings and services for the community.
- We recycle damaged tablecloths via our restoration services by transforming them into usable, smaller tablecloths, napkins, or laundry bags.
- Our tablecloths are made with durable fabrics that enjoy a longer useful life than other linens in the marketplace today.
- We minimize natural gas and electricity consumption by utilizing innovative heat recycling and lighting technologies.
- We partner with sustainable companies who are committed to water and energy conservation as well as eco-friendly packaging and safety.
- We do NOT use perchloroethylene (PERC) within our Laundry Plant which can cause harm to humans and animals.
- We support waste prevention through the use of recycling programs for paper, boxes, bottles, and batteries.

Get Inspired!

Our *Inspiration Gallery* is back by popular demand. To assist you with your masterpieces, we've taken some of our most popular tabletop images (some may have even been created by you!) and showcased them throughout our book. In the next several pages you'll see some of our favorite tabletops categorized by color. Let us know if these inspire you and, if so, send us a photo of your work. We'd love to showcase it!

All That Glitters

All that glitters *isn't* always gold. It's also white, Ivory, tiffany, midnight blue and black—all the GBS colors of the shimmery sequin rainbow. But the feeling of gold it resembles: Pure elegance and sophistication reflective of 1920's Parisian glamour.

Versatile Neutrals

There's a reason we've titled the neutrals of our inspiration gallery *versatile*. These warm linens bring a subtle, graceful style to any table and go with basically any color.

Taffeta Sequins

We felt our Teardrop Sequins needed some competition—hence the creation of our new Taffeta Sequins line. The differences are color options, how the sequins lay, and how they are spaced on the base fabric. Both are jaw droppers and will leave your clients begging for more...events, that is.

Food & Beverage Enhancements

We know a thing or two about enhancing the look of a table while protecting it at the same time. See how we spruce up a hotel utility table with our easy-to-use Spandex line. And we've taken table glam a step further by improving other hotel items such as Jackstands, trash cans and bins. They say it's the little things that count. We couldn't agree more.

GBS Table Matrix

How to use the Table Matrix:

1. At the top of the matrix, locate the table size you will be using.
2. Then follow down the column until you locate the desired effect you want the linen to produce.
3. Staying in the proper column, move across to the far left side of the matrix.
4. You have now located the linen size to order for the desired table and effect you want.
